EDUCATION

devCodeCamp

Nov 2017 – Current

Wisconsin's only fully immersive Full Stack Web Development boot camp. Studies focus on .NET, C#, JavaScript, HTML, CSS and SQL.

The Firehose Project

Oct 2016 – April 2017

Online coding boot camp that teaches Full Stack Web Development, specifically Ruby on Rails and JavaScript, as well as Algorithms and Data Structures.

Mississippi State University

May 2003

Bachelor of Business Administration
Emphasis in Marketing and
Professional Golf Management

PROJECTS

C#: (Lemonade Stand) A console representation of the online flash based game. Features the pillars of OOP in a strongly typed language.

JavaScript: (DH) A dice game played in the browser utilizing *DOM* manipulation.

Ruby on Rails: (TrakStats) A golf stat tracking app hosted on Heroku and built with *TDD*. Features include *notification mailers*, *video uploading* and integration with the *Stripe API* for online golf lesson payments.

Ruby on Rails: (Cattastic) A photo sharing application hosted on Heroku. Features include *TDD*, *User Authentication*, *AWS S3* for photo hosting and Acts As Votable gem for "Likes".

Ruby on Rails: (CD Chess) A chess app built remotely by 5 student developers. Technologies include *Git/Github*, *Heroku*, *Travis CI*, *RuboCop* and *Trello*. The team held *weekly sprints* and we would frequently *pair-program* together.
