WADE CARLSON

Full Stack Web Developer

www.wade-carlson.com   3747 E Carpenter Ave.   414.731.2082
wcarlsondev@gmail.com   Cudahy, WI 53110

SKILLS

C#
Visual Studio
.NET
Ruby
Rails
HTML5
CSS-3
JavaScript
jQuery
SQL
PostgreSQL
Heroku
AWS S3
Git
Github
RuboCop
Slack
Trello

PROJECTS

C#: (Lemonade Stand) A console representation of the online flash based game. Features the pillars of *OOP* in a strongly typed language.

JavaScript: (DH) A dice game played in the browser utilizing *DOM* manipulation.

Ruby on Rails: (TrakStats) A golf stat tracking app hosted on Heroku and built with *TDD.* Features include *notification mailers, video uploading* and integration with the *Stripe API* for online golf lesson payments.

Ruby on Rails: (Cattastic) A photo sharing application hosted on Heroku. Features include *TDD, User Authentication, AWS S3* for photo hosting and Acts As Votable gem for "Likes".

Ruby on Rails: (CD Chess) A chess app built remotely by 5 student developers. Technologies include *Git/Github, Heroku, Travis CI, RuboCop* and *Trello*. The team held *weekly sprints* and we would frequently *pair-program* together.
